

Foreword

Welcome to choose our product

-----Rearview Mirror multimedia with GPS and blue-tooth!

1. The UserManual, all rights reserved to our company.
2. Please copy the important data, our company will not take care for it in case any lost.
3. Pictures in the manual for reference only, please execute with the actual object in hand!

Caution:

- 1) Three reasons caused if the GPS can't connect with the satellite signal.
 - a): Please check if built-in navigation antenna works well.
 - b): It's normal to take a while to update the new information, and meanwhile the screen display in blank, take it easy, one moment, signal will come back.
 - C): Please check if the vehicle is running under the bridge, inside the channel or among the big buildings?
Which those area will affect the signal reception.
- 2) Driver should not operate this navigation during the driving, in case of any security problem caused by!!
- 3) Products will be continued updating, the final operation steps may have little changes comparing with this manual, please execute with the actual object in hand.

Contents

1. Product Appearance

2. User Knowledge:

- 2.1. How to shut on and off
- 2.2. Function of Indication Lights
- 2.3. Start-up Instruction
- 2.4. GPS Antenna Instruction
- 2.5. Touch Screen Cautions
- 2.6. Using Environment Cautions

3. Operation Instruction

- 3.1. Intelligent GPS
- 3.2. Multi-media function
- 3.3. Blue-tooth function
- 3.4. System Set-up

4. Specification Form

1. Product Appearance

1	Power on/off	Turn on /turn off
2	Returns to menu	Returns to menu
3	Hands free Receiving	Execute blue-tooth hands free receiving function
4	Hands free Hang-up	Execute blue-tooth hands free hand-up function
5	Blue-tooth Pairing	Execute blue-tooth hands free pairing function
6	Touch - Pen	Click and write on the screen.
7	SD card port	Including a S/D memory card with map software
8	GPS Receiver	Open the GPS receiver to horizontal position to receive the satellite signal.
9	Bracket Installation	Install the bracket which is suitable to original auto structure
10	The Inputs	Power Port and Signal- input port
11	Microphone input	Link to microphone

2. User Knowledge

2.1. How to shut on and off

Press **Power on/off Button** in 1 second, the unit will operate automatically, and use the same way to shut off the unit.

2.2. Function of Indication Lights

- A) The buttons on the surface will be lighted on when operating the unit.
 B) Pairing indication button is twinkling while pairing the blue-tooth and it will keep lighting if pairing successfully.

2.3. Start-up Instruction

During the start-up procedures, all the buttons don't work except the **Power on/off Button**, and it finished when the screen display the main menu.

2.4. GPS Antenna Instruction

This unit can receive the GPS signal well which is coming from the outer space satellite, although these GPS signals sometimes are very weak. But it doesn't mean in any environment, any location can be received well. User should open the antenna to face the sky, and operate this unit under the area without the big building and barrier surrounding.

P.S: To avoid the receiving effective, DO NOT stick or put anything upon the antenna!

2.5. Touch Screen Cautions

Touching screen is made by special electric-resistance material, is very sensitive to the temperature, humidity, pressure, etc. Therefore, in order to keep the touch screen

in a good working state, user should pay much attention to confirm not to operate either under the temperature higher than 60 degree C or lower than 10 degree C, or the sunshine.

DO NOT scratch the screen surface with sharp thing;

DO NOT click the screen surface with fingernail, should use the touch-pen;

DO NOT scrub unit housing or the screen surface with water or organic solvent, Buy special-purpose cleaning spread to clean the screen surface. Please use the adjusting function inside the system while the touchscreen is malfunction, in case it is fail to adjust, contact your supplier immediately, DO NOT open the unit by yourself.

2.6. Environment Cautions

- A) Avoid to operate this unit under below environment: temperature change quickly, high temperature (above 60 degree), low temperature (0 degree of the following), high pressure, much dust, static interference, moistness, or be immersed in any liquid.
 B) Avoid the radiation interference, or radiation from other electronic equipment. All those would affect the GPS function, remove the radiation, the GPS will display as normal.

3. Operation Instruction

2	The medium broadcasting	Audio, video, photograph browsing, e-books
3	Blue-tooth call	Blue-tooth hands free call, and touch dialing
4	System setup	Volume, power background lights, date and time, language and system information
5	Rearview Function	Automatically switch to rearview function under the backward state if the vehicle has the camera system.

3-1 Menu

3.1 Intelligent GPS

- A) This unit receives the signal from satellite with the GPS signal receiver to search the destination actually and display on the map. Usually the system will calculate the best solution automatically after the user set up the destination, which this can help you find the road fast and safe. In order to give you a easy and pleasure tour, the system will let you share our navigation system individual charm with e-map, flash, indicating speech and words, etc.

3-2 GPS receive environment

- B) About the e-map

The unit uses the latest update e-map for navigation, but please drive according to the actual routine under the Transportation Rules and Regulations, as the road will be changed after you got this unit for a while due to the Transportation Department would re-structure the route. Under this situation, please decide which way you should choose and refer to the displaying map ONLY. Driver can choose a more effective routine than this GPS if you know the road well around,

or you can drive according to the GPS indication or refer our navigation manual written by our company.

C) About receiving signal

GPS signal receiving will be affected by big and concentrated building (e.g. : tunnel, among huge building, underground parking and high bridge) or weather changing or the satellite signal closing, which will cause GPS can't orient or can't do it correctly then finally will be malfunction and the system will be disfunction. The tolerance of GPS orientation system usually is 8 meters. It will also have some tolerance while driving under the two parallel roads, the actual position maybe has some difference from the e-map, and even sometimes e-map will display on the nearest parallel road.

3.2. Multi-media function

Here introduce the multi-media function as below:

- A) Audio Player B) Picture Browser
C) E-book D) Video Player

A) Audio Player

a) The features of audio player

- 1) Support WMA9/MP3/WMA audio format, you can change the order as your want.
- 2) Please copy your audio documents to the memory card before you use it.

B) Audio Player Operation Instruction

Click multimedia menu and choose Audio Player Button  see as 3-4

3-3 Multi-media menu

	Shut off	Click and Shut off Audio player
	Play	If the music pause/stop, click and Continue to play
	Pause	If the music is playing, press to pause the music
	Stop	If the music is playing, press to stop the music
	Reset Playing Order	Support playing by order, direct playing and continuous playing
	Previous song	Play last song
	Next song	Play next song
	Volume	Pull the Adjusting Button on the volume left and right by touch pen, pull left for minus and pull right for plus.
	Schedule	Pull the Adjusting Button on the schedule left and right by touch pen, Pull left for backward and pull right for forward and continuous to display.
	Folder	Click and come back to the audio folder, choose the your favorite song, see as 3-5
	Song Name/Format	Display the playing song name and the format
	Time	Show how long of the song is playing
	Playing Order	Display current playing order

C) Audio folder

	Shut off	Click and close the folder
	Previous page	Show the content of previous page
	Next page	Show the content of next page
	Return	Come back to last folder
	Folder name	Show the displaying audio folder name
	Song name/Format	Song name and its audio format

3-4 Audio player

3-5 Audio folder

3-6 Picture browser

B) Picture Browser

a) The features of the picture browser

- 1) Support JPG/GIF/BMP/PNG format
- 2) Support the picture for rotating, enlarging/downsizing and displaying automatically.
- 3) Please copy your picture documents to the memory card before you use it.

b) Picture Browser Operation Instruction

Click multimedia menu and choose "Picture Browser Button" , see as 3-6

	Shut off	Click and close the picture browser
	Enlarging	To enlarge the size comparing the displaying picture
	Downsizing	To downsize the size comparing the displaying picture
	Rotating Picture	Click the current pictures and clockwise in 90 degree
	Displaying automatically	Click and will continuous display the pictures
	Previous picture	Browse previous picture in the same folder
	Next picture	Browse next picture in the same folder
	Folder	Click and come back to the picture folder, choose the your favorite picture, see as 3-7
	Folder name/Format	Display current displaying picture name and its format

c) Picture folder

	Shut off	Click and close the folder
	Previous page	Click and close the previous page
	Next page	Show the content of next page
	Return	Come back to last folder
	Folder name	Show the displaying picture folder name
	Picture name/Format	Picture name and its format

3-7 Picture folder

C) E-book

a) The feature of E-book

- 1) Support TXT format version
- 2) Support to turn the page and page selection or folder selection.
- 3) Please copy your e-book documents (TXT format) to the memory card before you use it.

3-8 E-book

b) E-book Operation Instruction

Click multimedia menu and choose "E-book Button" , see as 3-8

	Shut off	Click and close the E-book
	Previous page	Click and read previous page
	Next page	Click and read next page
	Scan page	Click and display "Page Selection" see as 3-9, can select any page you want to read.
	Folder	Click and come back the folder to choose the book you want to read
	Folder name/format	Display current text folder name and its format
	Page No/Total page	Current page number and total page quantities

	Shut off	Click and exit the page selection
	Number keyboard	Among 0-9, can constitute any figure from 0 to 9999.
	Figure Displaying area	Displaying the figures you enter
	Backspace	Press and delete the latest figure
	Zero clearing	To clean all the figures
	Return	Enter the page No, click and come back to that page

3-9 Page selection

	Shut off	Click and close the folder
	Previous page	Show the previous page
	Next page	Show the next page
	Return	Click and Come back to last folder
	Folder name	Display the current book folder name
	Book name/Format	Book name and its format

3-10 E-book folder

D) Video Player

a) The features of video player

- 1) Support WMA/ASF/AVI format
- 2) Support full screen displaying, schedule and documents selection
- 3) Please copy your video documents (WMV, ASF and AVI format) to the memory card before you use it.

3-11 Videoplayer

b) Video Player Operation Instruction

Click multimedia menu and choose " Video Player Button" , see as 3-11

	Shut off	Click and Shut off Audio player
	Play	If the movie pause/stop, click and Continue to play
	Pause	If the movie is playing, press to pause the music
	Stop	If the movie is playing, press to stop the music
	Skip Forward	Click, the movie will skip forward; cancel, the movie will continue to display.
	Volume	Pull the Adjusting Button on the volume left and right by touch pen, pull left for minus and pull right for plus.
	Schedule	Pull the Adjusting Button on the schedule left and right by touch pen, pull left for backward and pull right for forward and continuous to display
	Folder	Click and come back to the audio folder, choose the your favorite movie, see as 3-12
	Movie Name/Format	Display the playing movie name and its format
	Time	Show how long of the movie is playing and the total time

	Shut off	Click and close the folder
	Previous page	Show the content of previous page
	Next page	Show the content of next page
	Return	Come back to last folder
	Folder name	Display the current movie folder name
	Movie name/Format	Movie name and its format

3-12 Videoplayer folder

3.3. Blue-tooth

Click the main menu and choose "Blue-Tooth Button" , to enter blue-tooth menu.

You can operate the blue-tooth function here, including Telephone Keyboard, Called Record, Latest Call, Pairing, Blue-tooth Set-up, and Pairing Information.
